Peyman **Shojaei**

Co-Founder & CTO @ Xeco Labs · Fractional CTO for Fintech & AI-Native Products
Amsterdam, The Netherlands
(+31) 6 81 39 98 43 | peyman@xecolabs.com | xecolabs.com | peymanshojaei

Hands-on CTO and full-stack architect in Amsterdam, nearly 20 years shipping production software, the last 8 deep in regulated fintech for asset managers overseeing €3B+ in AUM. Co-founded Xeco Labs in 2018 as the embedded technical partner for asset managers and fund administrators (IndexPeople since 2018; AssetCare 2021 to 2026). Now all-in on generative AI, building AI-native products that weave LLMs, agents, and automation in from day one. Best at pressure-testing ambiguous founder ideas against compliance and technical constraints, and getting credible MVPs in front of users quickly.

Selected Experience

Xeco Labs — *Amsterdam, The Netherlands*
Co-Founder & CTO — *Nov. 2017 – Present*
- Co-founded the senior-led technical partner of record for asset managers and fund administrators; technical partner to IndexPeople (since 2018) and AssetCare (2021 to 2026); now opening capacity for new fintech and AI-native partnerships.
- Architected Fundtech end to end, AssetCare's fund-administration platform running live for VanEck (digital-asset ETNs), Atradius, and Pensioenfonds Flexsecurity; 99.99% uptime, 80+ fund managers, 13,000+ transactions, 75,000+ investor reports.

Navan — *Amsterdam, The Netherlands*
Senior Software Engineer (Freelance) — *Apr. 2021 – Jul. 2021*
- Brought global rail (SNCF, Deutsche Bahn, Eurostar, Trainline) into the platform via a unified ticketing API normalizing legacy SOAP providers; closed with a Staff Software Engineer offer.

SPEQT — *Amsterdam, The Netherlands*
Co-Founder & CTO — *Jan. 2020 – Mar. 2021*
- Co-founded a B2B fintech (disposable business bank accounts paired with an expense management layer); built the full stack on Treezor BaaS, becoming their first NL-based client across IBAN, Maestro, and iDEAL rails.

FIND A SHELF — *The Netherlands*
Co-Founder & Technical Lead — *Sep. 2015 – Dec. 2016*
- Co-founded a retail-tech venture; built the platform end to end (Python, Django, AWS), pivoted from "Airbnb for shelf space" to curated European wholesale, and wound down on a disciplined unit-economics call.

TravelBird — *Amsterdam, The Netherlands*
Lead Software Engineer — *Jun. 2015 – Mar. 2016*
- Led the team that automated TravelBird's back-office stack end to end, replacing manual refund, inventory, and supplier-booking workflows; a key enabler of the company's EU growth phase.

TMG — *Amsterdam, The Netherlands*
Mobile Development Team Lead — *Mar. 2014 – May. 2015*
- Led mobile delivery across TMG news titles (Telegraaf, Telesport); shipped two native iOS/Android apps for the 2014 FIFA World Cup that reached millions of users and ran the entire tournament without a production incident.

Hyves — *Amsterdam, The Netherlands*
Software Developer — *Oct. 2012 – Dec. 2013*
- Joined the country's dominant social network (~10M MAU, post-TMG acquisition) directly out of university; shipped on the core PHP platform and the mobile team building experiences for De Telegraaf and DFT.

Core Competencies

AI & LLMs	AI/LLM System Design & Integration, Claude Agent SDK, RAG Pipelines, Workflow Automation, On-Device ML Inference
Architecture	Cloud-Native Systems (AWS), Microservices, API Design, Scalable Platform Engineering
Strategy	Technical Due Diligence, Zero-to-One Product Development, Build vs. Buy Decisions
Leadership	Engineering Team Building, Stakeholder Management, Fractional CTO Engagements

Education

University of Amsterdam — *Amsterdam, The Netherlands*
M.Sc. in Computer Science (Grid Computing) — *2010 – 2012*

Amirkabir University of Technology — *Tehran, Iran*
B.Sc. in Computer Science and Engineering — *2004 – 2008*
